EURO-AIRE™

Disposable Bag Filters:

Euro-Bag (EAB)

General

EAB Series is a bag filter (or pocket filter), very commonly used in all kinds of industries as a secondary filter. Known for its economical value and vast range of flexibility, EAB allows you to have a mix-and-match combination in terms of efficiency, number of pockets and depth of pockets, depending on applications and needs.

Standard Specifications

- Synthetic/Fiberglass media
- Efficiency: G4/M5/M6/F7/F8
- Galvanized Steel Frame
- No. of pockets: 5/6/7/8/10/12
- Complied with EN779 and ASHRAE 52.2 Test Standards

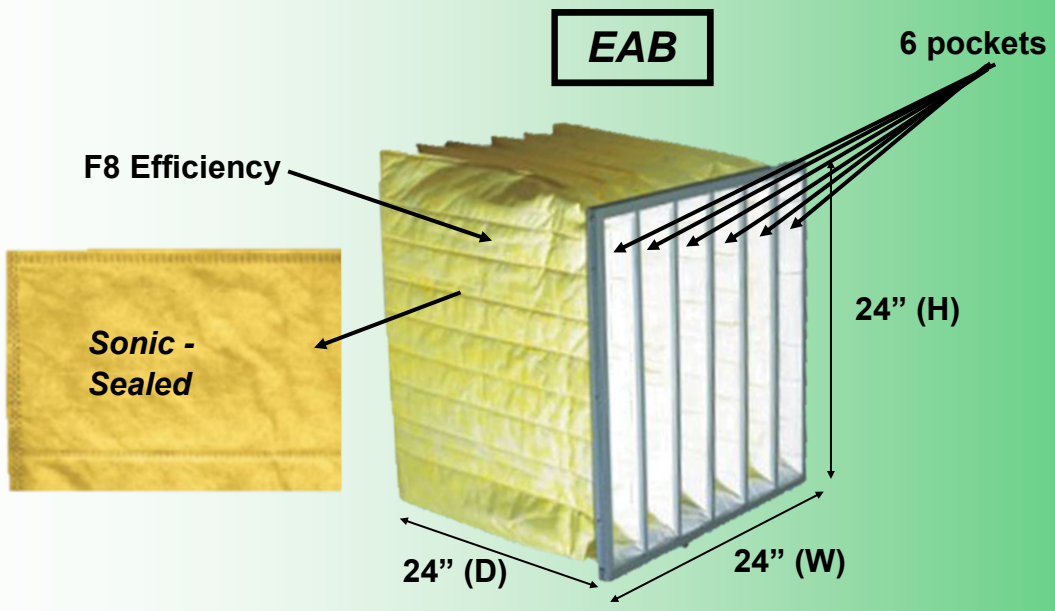
EURO-AIRE



Construction of Model

Series	Efficiency	No. of pockets	Size	Depth of pocket
EAB —	SF8 —	6 —	44	22
Euro-Bag	Synthetic (90-95%)	6 pockets	24" (W) x 24" (H)	22" Depth

Efficiency	Model	Size (WHD)	No. of pockets
G4 / M5 / M6 / F7 / F8	EAB-SF*-6-4418	24" x 24" x 18"	6
G4 / M5 / M6 / F7 / F8	EAB-SF*-6-4422	24" x 24" x 22"	6
G4 / M5 / M6 / F7 / F8	EAB-SF*-8-4424	24" x 24" x 24"	8
G4 / M5 / M6 / F7 / F8	EAB-SF*-3-2418	12" x 24" x 18"	3
G4 / M5 / M6 / F7 / F8	EAB-SF*-3-2422	12" x 24" x 22"	3
G4 / M5 / M6 / F7 / F8	EAB-SF*-4-2424	12" x 24" x 24"	4

Notes:
- "*" refers to selection of efficiency.
- "S" refers to Synthetic media. Available in Fiberglass media, e.g. "EAB-FF*-6-4418.
